

The Narratives in Tandem Project presents

GRAPHIC MEDICINE AT WORK: REFLECTIVE DRAWING IN THE MEDICAL SCHOOL CLASSROOM

APRIL 22, 2014, 2:30-4:00, INTS 1113

Michael Green, MD & MK Czerwiec RN, MA

This presentation considers how graphics and text can be used to effectively communicate complex medical narratives. Drawing on their work in graphic medicine, their own research, and medical experiences, Green & Czerwiec consider how medical students' development of their own stories into graphic depictions can enhance medical education.

Michael Green is a professor in the Departments of Humanities and Medicine at Penn State College of Medicine. He teaches a course on Comics and Medicine to 4th year medical students. Dr. Green is also a general internist researching medical decision-making, ethics and the end of life, and advance care planning.

MK Czerwiec is an Artist in Residence at Northwestern Feinberg Medical School teaching M1 and M2 students in a seminar she developed entitled "Drawing Medicine". Since 2000, MK has created comics under the pseudonym Comic Nurse. Her clinical experience is in HIV/AIDS and hospice care.

The Narratives in Tandem Project is supported by the Center for Ideas and Society through a major grant from the *National Endowment for the Humanities: Exploring the human endeavor.*
